

GPO appreciates the input from the 78 respondents who reviewed and submitted comments on the processing of the 300 publications from the results of the EPA Pilot Project. This sample was processed to allow GPO to determine workflow and staffing implications as well as to estimate the amount of time that would be required to process all the publications acquired during the EPA Pilot Project. GPO is taking all of the comments into consideration as we move forward with our Web harvesting efforts. If you haven't already, we encourage you to review the [Web Publication Harvesting](#) web page.
